

Your Geography Journey

Are you interested in seeing where your learning will take you throughout your time here at National?

Changing economic world

Trip: Nottingham Urban study

⇒ How has the UK developed overtime and why are some parts of the world trapped in poverty?

Urban issues and challenges

⇒ What issues and challenges are posed for Nottingham, UK and Mumbai, India?

Physical landscapes in the United Kingdom

⇒ What are the processes that create our rivers and our coasts?

Resource management

⇒ What issues does our dependence on energy, water and food pose?

Year 11

Trip: Sherwood Forest and Farnsfield

The living world

⇒ How diverse is our planet in terms of physical geography?

Disastrous Hazards

- ⇒ How do tectonic plates move around our planet?
- ⇒ Should we be worried about climatic hazards?
- ⇒ Who are worst affected by natural hazards?
- ⇒ Case studies: Haiti, Japan, Iceland

Are we at risk of flooding?

- ⇒ What are rivers like from source to mouth?
- ⇒ How and why do they change?
- ⇒ What can cause flooding?
- ⇒ Case studies: River Tees, Boscastle floods

Natural Hazards

- ⇒ What makes a hazard a disaster?
- ⇒ How can we prepare for earthquakes, volcanic eruptions, tsunamis and hurricanes?

Year 10

Our living planet

- ⇒ What is an ecosystem?
- ⇒ What will you find in a tropical rainforest?
- ⇒ What are the characteristics of colder environments?
- ⇒ Case studies: Svalbard, Arctic circle

The Geography of Disease

- ⇒ How can Geography be helpful in understanding how diseases spread?
- ⇒ What is the global distribution of disease around the world?

Our changing coastline

- ⇒ What are the processes that shape our coastlines?
- ⇒ Can we protect against coastal erosion?
- ⇒ Case study: The Holderness Coast—Hornsea

Year 9

Incredible Africa!

- ⇒ Dispelling misconceptions
- ⇒ Sustainable tourism and the impact of the 2010 world cup
- ⇒ Oil, conflict and blood diamonds!
- ⇒ Case studies: Sudan, Nigeria, South Africa

Development: India

- ⇒ How can we measure the development of a country?
- ⇒ Why are some countries less developed than others?
- ⇒ Case study: Mumbai, India

How do we power the world?

- ⇒ What is the issue with our reliance on fossil fuels?
- ⇒ What is fracking?
- ⇒ The disastrous impacts of transporting energy
- ⇒ Case studies: Exxon Valdez, Curitiba, Paris Agreement

Year 8

Is our weather becoming more extreme?

- ⇒ How does weather and climate vary across the world?
- ⇒ Where are the hottest, driest, coldest and wettest climates?
- ⇒ Case study: Beast from the East (UK)

Should everyone live like me?

- ⇒ How can we be more sustainable?
- ⇒ Who wins and loses in our world?
- ⇒ Case study: Rana Plaza disaster

Is our world overpopulated?

- ⇒ What is the current world population?
- ⇒ Why do countries have differing life expectancies?
- ⇒ How can we sustainably manage population growth?
- ⇒ Case studies: Russia, China

Year 7

Where am I?

- ⇒ Introduction to Geography
- ⇒ How do maps work?
- ⇒ Become a map expert!
